

OPTIMA Patient Interviews: procedure for approaching and registering patients eligible for OPTIMA for an interview (sites not audio-recording their consultations):

The OPTIMA qualitative team are keen to interview both patients that *are taking part* in OPTIMA and *those who have chosen not to*, in order to explore patient decision making. Learning about the patient perspective will significantly contribute to our goal of supporting recruitment and informed consent. We invite *all* sites to approach *all* patients about potentially taking part in an interview.

Patient interviews are open to all sites and not just those audio-recording consultations.

All documentation needed for this process is available at: <http://optimabreaststudy.com/optima-sites/qualitative-recruitment-study.php>

The researcher conducting the interview will consent the patient for an interview.

Any queries or for more information about the interviews, please contact Nicola Farrar (nicola.farrar@bristol.ac.uk) or Carmel Conefrey (carmel.conefrey@bristol.ac.uk)
