Newsletter March 2020

Optimal Personalised Treatment of early breast cancer using Multi-parameter Analysis

Recruitment update

Total recruitment is currently 2032 (1620 in Optima main and 412 in prelim)

Well done to all at **Russells Hall Hospital** and **The Clatterbridge Cancer Centre,** both sites recruited **6 patients** in **February**, making them our top recruiters!

If possible please continue to screen and approach potential participants.

Thank you!

You Did it!

February was our best recruitment month to date with a total of 73 randomisations. Congratulations to the team in Southampton Hospital who recruited our 2000th Participant! They are all pictured below, proud recipients of an OPTIMA hamper!

February Recruitment

As mentioned above, February was our best evermonth for recruitment. 44 sites recruited at least one patient and the following hospitals recruited two or more patients, which is fantastic!

- Basingstoke and North Hampshire Hospital
- Bristol Haematology and Oncology Centre
- Darent Valley Hospital
- Doncaster Royal infirmary
- Musgrove Park Hospital
- Oslo Hospital, Norway
- Ostfold Hospital, Norway
- Peterborough City Hospital
- Royal Shrewsbury Hospital
- Southampton General HospitalThe Christie NHS Foundation Trust
- THE CHITSEE WITS FOUNDATION THUS
- The Clatterbridge Cancer Centre
- Ulster Hospital
- University Hospitals Morecombe Bay
- Weston Park Hospital

We reached a major landmark in February - a fantastic

2000 patients recruited!

THANK YOU for all your hard work and support!

The OPTIMA Trial and Covid-19

To prioritise frontline care, we know that sites are reviewing participation in clinical trials. Whilst under constant review, the OPTIMA study is open to recruitment.

Approximately one third of OPTIMA patients will avoid chemotherapy and for this reason, we hope that, where possible, sites can continue to recruit. For patients that you are offering chemotherapy, OPTIMA can enhance patient safety and free up staffing and resources:

Enhance patient Safety:

- Reduce patient exposure to chemotherapy lessens the risk of serious illness from COVID-19
- Patients having endocrine therapy alone will have fewer hospital visits
- Patients having chemotherapy will be cared for the same as outside the study.

Free up staff and clinical resources as:

- Fewer clinic appointments and less use of chemotherapy
- Fewer blood tests for patients not having chemotherapy

From the outset, OPTIMA was designed as a flexible pragmatic study and we are working to enable it to adapt to the present circumstances.

Please let us know how we can support you to continue recruitment to OPTIMA.

OPTIMA Website – a top resource for patients and practitioners

Go live

It's live – we are all very excited that the OPTIMA Website launched this week.

With patient advocates involved throughout, the website has been designed for both patients and healthcare professionals. Check it out here and share it with your patients:

https://optimabreaststudy.com

Please promote it to your patients. In the section 'Taking Part' they can find out about treatment for breast cancer, why we are doing OPTIMA and what's involved in taking part. There's also a handy map showing all OPTIMA hospitals.

On the 'OPTIMA Sites' section you can speedily pull up all the essential OPTIMA documents in the confidence that you will be viewing the current version. You can also access all our recruitment support and training materials and recruitment tips in the back catalogue of newsletters. Let us know what you think about the OPTIMA site at optima@warwick.ac.uk

Patient interviews

Where possible, please continue to approach patients who decline OPTIMA about taking part in an interview about their experiences. We've now completed eight interviews, with the findings helping to refine recruitment guidance. Interviews take around thirty minutes and will likely be carried out over the phone. Sites receive 1 accrual point for each patient they register for an interview and/or an audio-recording.

Please visit the OPTIMA website or contact Nicola Farrar (Nicola.farrar@bristol.ac.uk / 0117 331 3307) for more information and the documents required to register a patient for an interview. Thank you for your continued support for the QRS.

Working arrangements

A postcard was sent out last week but just to remind you, all WCTU staff are now working from home, however are available to answer queries and recruitment is continuing as normal. Please feel free to contact us on optima@warwick.ac.uk

The randomisation line is open as normal

+44 (0)2476 150402 - Monday to Friday, 9am—5pm

The central lab will also be open and active as normal – sample processing and treatment allocation timelines will not currently be altered (however please remember to use the new address from Friday 27th March!)

In this ever changing climate we will keep you fully updated as things progress. Responses may be a little slower than usual but please keep an eye out for any updates.

Thank you for your ongoing support!
